

VTT Roboto CVT information

Author: Mike Duggan 6th Jan 2020

Below are the CVT Height CVT's generated by the VTT Autohinter

Color Key: CVT Description / CVT Number / Reference Glyph

Uppercase CVT's

Square Cap Height = CVT 2 = Cap 'H'

Cap Height Overshoot = CVT 3 = Cap 'O'

Baseline = CVT 8

Cap Undershoot = CVT 9 = Cap 'O'

Lowercase CVT's

Lowercase Flat Ascender = CVT 0

Lowercase Ascender Overshoot = CVT 1

Lowercase Square x-height = CVT 6 = Lowercase 'x'

Lowercase x-height Overshoot = CVT 7 = Lowercase 'o'

Lowercase Baseline undershoot = CVT 11 = Lowercase 'o'

Lowercase Flat Descender = CVT 14

Lowercase Round Descender Undershoot = CVT 15

Figures CVT's

Flat Figure Height = CVT 4 = Figure '1'

Figure Height Overshoot = CVT 5 = Figure '0'

Figure Height Undershoot = CVT 13 = Figure '0'
